WILLIAM V. PRATT, Admiral U. S. Navy, Chief of Naval Operations
A. W. GREELY, Arctic Explorer, Major General U. S. Army
C. HART MERRIAM, Member National Academy of Sciences
RAYMOND S. PATTON, Director U. S. Coast and Geodetic Survey
GEORGE OTIS SMITH, Chairman Federal Power Commission
LYMAN J. BRIGGS, Director U. S. Bureau of Standards
ALEXANDER WETMORE, Assistant Secretary, Smithsonian Institution
O. H. TITTMANN, Formerly Superintendent U. S. Coast and Geodetic Survey
GEORGE R. PUTNAM, Commissioner U. S. Bureau of Lighthouses
GILBERT GROSVENOR, Editor of National Geographic Magazine
JOHN OLIVER LA GORCE, Associate Editor National Geographic Magazine
THEODORE W. NOYES, Editor of The Evening Star
J. HOWARD GORE, Prof. Emeritus Mathematics, The George Washington University
ROBERT V. FLEMING, President Riggs National Bank
FREDERICK V. COVILLE, Botanist, U. S. Department of Agriculture
GEORGE SHIRAS, 3d, Formerly Member U. S. Congress, Faunal Naturalist and Wild-Game Photographer

ORGANIZED FOR "THE INCREASE AND DIFFUSION OF GEOGRAPHIC KNOWLEDGE"

TO carry out the purposes for which it was founded forty-five years ago the National Geographic Society publishes this Magazine monthly. All receipts are invested in the Magazine itself or expended directly to promote geographic knowledge.

ARTICLES and photographs are desired. For material which the Magazine can use, generous remuneration is made. Contributions should be accompanied by addressed return envelope and postage.

IMMEDIATELY after the terrific eruption of the world's largest crater, Mt. Katmai, in Alaska, a National Geographic Society expedition was sent to make observations of this remarkable phenomenon. Four expeditions have followed and the extraordinary scientific data resulting given to the world. In this vicinity an eighth wonder of the world was discovered and explored—"The Valley of Ten Thousand Smokes," a vast area of steaming, spouting fissures. As a result of The Society's discoveries this area has been created a National Monument by proclamation of the President of the United States.

AT an expense of over $50,000 The Society sent a notable series of expeditions into Peru to investigate the traces of the Inca race. Their discoveries form a large share of our knowledge of a civilization waning when Pizarro first set foot in Peru.

THE Society also had the honor of subscribing a substantial sum to the expedition of Admiral Peary, who discovered the North Pole, and contributed $55,000 to Admiral Byrd's Antarctic Expedition.

NOT long ago The Society granted $25,000, and in addition $75,000 was given by individual members to the Government when the congressional appropriation for the purpose was insufficient, and the finest of the giant sequoia trees of California were thereby saved for the American people.

THE Society's notable expeditions to New Mexico have pushed back the historic horizons of the Southwestern United States to a period nearly eight centuries before Columbus crossed the Atlantic. By dating the ruins of the vast communal dwellings in that region The Society's researches have solved secrets that have puzzled historians for three hundred years. The Society is sponsoring an ornithological survey of Venezuela.

TO further the study of solar radiation in relation to long range weather forecastings, The Society has appropriated $65,000 to enable the Smithsonian Institution to establish a station for six years on Mt. Brukkaros, in South West Africa.
